Welded fence with Crapal[®]2 coating

Product description

Welded mesh in high tensile steel especially suitable for the protection of forestry plantations

- ▶ Crapal[®]2 coating – Life span 2x longer than EN 10244-2 heavily galvanised wire
- ▶ Progressive meshes
- ▶ Horizontal wires in high tensile steel (70 to 90 kg/mm²)
- ▶ Product complies with EN 10223-4 standard

Applications

- ▶ Industry
- ▶ Motorway
- ▶ Railway

Life span **2x longer** than EN 10244-2 heavily galvanised

Characteristics

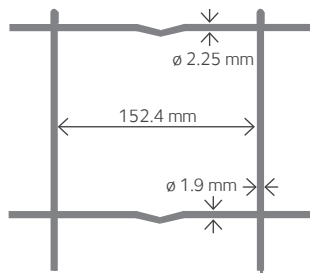

Nomination	Height (cm)	Length (m)	Weight (kg)	Rolls/pallet
120-11-15	121.9	50	22.0	12
150-13-15	149.9	50	26.3	12
150-18-15	149.9	50	31.9	12
180-20-15	180.3	50	36.3	12
200-21-15	200.7	50	38.9	12

Mesh

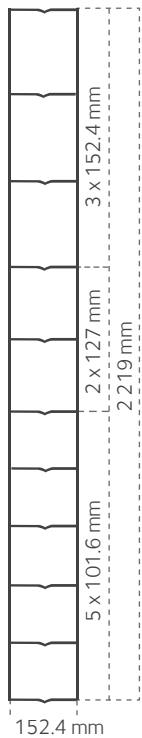

- ▶ Top and bottom wires Ø 2.25 mm R 70 to 90 kg/mm²
- ▶ Horizontal wires Ø 1.90 mm R 70 to 90 kg/mm²
- ▶ Vertical wires Ø 1.90 mm R 40 to 55 kg/mm²
