## WireSolutions

## 50 years experience in the manufacturing of fences

Subsidiary of ArcelorMittal, the world's leading steel and mining company, WireSolutions offers a diversified portfolio of low and high carbon wires, ropes and strands, steel fibres for concrete reinforcement, fences, nails and corrosion resistant solutions.

For more than 50 years, WireSolutions has been a European leading supplier of fences in many applications such as agriculture, residential, industry, sport, motorway and railway. Our fences are manufactured in our plants in Luxembourg, Poland and United Kingdom.

WireSolutions gives priority to quality and sustainability. Our fences benefit from the most advanced technologies regarding corrosion protection (Crapal ${ }^{\circledR}$ coating) and environment (Nature coating). WireSolutions relies on experienced women and men who are committed to offer excellence to their customers. This is validated by 3 standards:

- ISO 9001, Quality Management System
- ISO 14001, Environmental Management System
- OHSAS 18001, Health \& Safety Management System

Because every need is different, our technical and sales teams advise you to make the best choice.

What are the advantages of being a subsidiary of ArcelorMittal?

- Sustainable access to high quality raw materials
- Quality controls through the entire supply chain, from iron ore to finished products
- Development of advanced technologies with the support of ArcelorMittal R\&D Centres
- Guarantee of a sustainable partner

Our fences benefit from the most advanced technologies regarding corrosion and environmental protection.

## Crapal ${ }^{\text {® }}$

## The best protection

## Life span

The wire lifespan is determined by the lifetime of the coating layer that protects the wire.

## Corrosion

The coating is subject to damages depending on the corrosive potential of the air and on the aggressiveness of the chemicals used for treatments.

Pioneer in the manufacturing of the heavily galvanised wire Crapo ${ }^{\circledR}$ and the zinc/aluminium wire Crapal ${ }^{\circledR}$ which is today recognised worldwide, WireSolutions has never stopped working on the improvement of corrosion protection by developping the zinc/aluminium/ magnesium wire Crapal® ${ }^{\circledR}$ Optimum.

## The Crapal ${ }^{\circledR}$ coating

Zinc gives an active and sacrificial protection while aluminium provides passive protection in covering zinc and significantly slowing down its sacrificial reaction.

Addition of magnesium stabilises the whole molecular structure and gives the coating an even efficient resistance against corrosion. Crapal ${ }^{\circledR}$ Optimum ensures an optimal protection in the most agressive environments even in cut ends and welding points.

## Properties

Increased lifespan

- Economy over time

Durable smooth surface

- Does not retain corrosive components

## Excellent adhesion

- No peeling, no flaking when the wire is folded

Constant protective layer all around the wire

- Only guarantee of an effective protection

Corrosion protection efficiency with the environment in mind

- 100\% recyclable

Salt spray test resistance

Crapal ${ }^{\oplus}$ Optimum

Crapal®optimum

WireSolutions
continuously works on the improvement of corrosion protection

## Nature

## The new alternative to PVC coating

## Advantages

In a world of ever-increasing environmental awareness, Nature coating offers so much more than standard paint and PVC finishes:

- Long term corrosion protection to metal items
- No cracking, peeling or chipping
- Superior resistance to salt, sea, sand and sun
- Good grip and warm feel
- Very low smoke on burning
- No VOCs¹, plasticizers, TGIC² $^{2}$ or halogens
- Nature will withstand flexing caused by wind and temperature changes down to $-20^{\circ} \mathrm{C}$
- No heavy metals

## 0\%PVC

| Extreme environments | Nature | Polyester | PVC |
| :--- | :---: | :---: | :---: |
| Fences exposed to salt <br> (coastal areas, marine environments worldwide) | $* *$ | $*$ | $* *$ |
| Fences exposed to sand abrasion <br> (desert and beach environments worldwide) | $* *$ | $*$ | $* *$ |
| Fences exposed to extreme cold <br> (coating flexibility at temperatures lower than $-20^{\circ} \mathrm{C}$ ) | $* *$ | $*$ | $*$ |
| Fences exposed to chemicals <br> (close to chemical plants, fuel stations or airports) | $* *$ | $*$ | $* *$ |
| Fences exposed to intense sunlight <br> (UV resistance) | $* * *$ | $* *$ | $*$ |
| Ability to resist lichen, mould, moss and algae | $* * *$ | $*$ | $* *$ |
| Low toxicity on burning | $* * *$ | $*$ | $*$ |
| No leaching or emission of VOCs, plasticizers <br> or metals into the local environment | $*$ | $*$ |  |

Nature is already used for:

- Street furniture and lamp posts
- Offshore, sub-sea and marine
- Pipes, tanks and fittings
- Construction

In harmony with the environment, Nature coating provides long lasting protection for all types of fencing in adverse conditions

## Sologne ${ }^{\circledR} 4 \mathrm{R}^{*}$

## Welded fence with Crapal ${ }^{\circledR}$ Optimum coating

## Product description

Heavy welded fence specifically for large animals (breeding and hunting)

- 50 cm under ground to guarantee non crossing of burrowing animals
- Tightened meshes at the bottom of the fence preventing animals from forcing the fence by snouting
- Complies with EN 10223-4 standard

## *4R means:

- Robustness - High strength wire ( 70 to $90 \mathrm{~kg} / \mathrm{mm}^{2}$ )
- Rigidity - Wire of large diameter
- Resistance to corrosion
- Resistance to shocks and animal thrust

## Characteristics

## Chain link fence

## Product description

Chain link fence produced from galvanised wire with a protective organic coating

- Diamond-shaped mesh suitable for erection on broken grounds
- Product complies with EN 10223-6 standard

## Characteristics

- Galvanised Accordo $^{\top \mathrm{M}}$ and $\mathrm{Accordo}{ }^{\top \mathrm{M}} \mathrm{Crapal}^{\circledR} 4$ are available upon request
$\left.\begin{array}{ccc}\begin{array}{c}\text { Mesh size } \\ (\mathrm{mm})\end{array} & \begin{array}{c}\text { Wire diameter } \\ (\mathrm{mm})\end{array} & \begin{array}{c}\text { Height } \\ (\mathrm{cm})\end{array} \\ \hline 50 & 2.8 & \begin{array}{c}\text { Length } \\ (\mathrm{m})\end{array} \\ \hline 50 & 2.8 & 100\end{array}\right)$

## Mesh

## ArcelorMittal

## Avigalim

## Hexagonal netting

## Product description

Hot dipped galvanised fence with hexagonal netting

- Can be used as pen for small animals
- Its flexibility means it has many uses
- Product complies with EN 10223-2 standard

## Characteristics

- Other sizes and lenghts on demand

| Mesh size (mm) | Wire diameter (mm) | Height (cm) | Length (m) |
| :---: | :---: | :---: | :---: |
| 13 | 0.7 | 50 | 25 |
| 13 | 0.7 | 100 | 25 |
| 25 | 0.8 | 50 | 25 |
| 25 | 0.8 | 100 | 25 |
| 25 | 0.8 | 100 | 50 |
| 25 | 0.8 | 120 | 50 |
| 25 | 0.8 | 150 | 50 |
| 25 | 0.8 | 200 | 50 |
| 40 | 0.9 | 50 | 50 |
| 40 | 0.9 | 100 | 50 |
| 40 | 0.9 | 120 | 50 |
| 40 | 0.9 | 150 | 50 |
| 50 | 1.0 | 100 | 50 |

## Netting

## ArcelorMittal

## Quadra™

## Heavily galvanised welded fence

## Product description

Heavily galvanised welded fence with small square meshes

- Many applications: DIY, industry, protection of small wildlife, etc.
- Its excellent resistance to deformation and its anticorrosion properties makes it a very popular product

## Characteristics

- Product delivered in rolls of 25 or 10 m
- Meshes from $6.5 \times 6.5$ up to $25 \times 25 \mathrm{~mm}$
- Please contact us for further information

## Applications

- Very diverse: agriculture, industry, leasure, etc.

```
Coating
- Heavily galvanised
```

## Colour

- Green RAL 6005 on demand

## Mesh

## ArcelorMittal

## Carrelux ${ }^{\circledR}$ Annealed

## Welded mesh in very low annealed wire

## Product description

Carrelux ${ }^{\circledR}$ is used in Construction, mainly as primary reinforcement for cementitious floor screeds

- Product complies with NF P61-202 (DTU 52.1)
- A professional product easy to carry, store and handle
- Large programme with sizes up to 150 cm

```
Applications
- Construction
> Others
```

## Quality

- Annealed

## Squared mesh

## Characteristics

## Standard types

|  | Min. weight (m²) | Mesh size (mm) | Wire $\varnothing$ (mm) | Width (cm) | Roll length (m) | Surface (m²) | Rolls/pallet |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| E | 220 | $50 \times 50$ | 0.9 | 100 | 100 | 100 | 16 |
| F | 325 | $100 \times 100$ | $1.8 \times 1.4$ | 100 | 100 | 100 | 9 |
| G | 650 | $50 \times 50$ | $1.8 \times 1.4$ | 100 | 50 | 50 | 9 |

## Specific types

|  | Min. weight (m²) | Mesh size (mm) | Wire $\varnothing$ (mm) | Width (cm) | Roll length (m) | Surface (m²) | Rolls/pallet |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| E | 220 | $50 \times 50$ | 0.9 | 120* | 100 | 120 | 16 |
| F | 325 | $100 \times 100$ | $1.8 \times 1.4$ | 120* | 100 | 120 | 9 |
| G | 650 | $50 \times 50$ | $1.8 \times 1.4$ | 120* | 50 | 60 | 9 |
| G | 650 | $50 \times 50$ | $1.8 \times 1.4$ | 120* | 50 | 75 | 9 |

## ArcelorMittal

## Conditioning wire

## For many applications

## Characteristics

Packaging in traditional coils of 5 or 25 kg
Coils of 5 kg strapped together in 5 ( $=25 \mathrm{~kg}$ )

- $\varnothing 0.80$ to 1.80 mm supplied in 5 bundles ( $=125 \mathrm{~kg}$ ) - Order unit per dimension
- $\varnothing 2.00$ to 6.00 mm supplied in 10 bundles ( $=250 \mathrm{~kg}$ ) - Order unit per dimension

Coils of 25 kg supplied in 10 bundles ( $=250 \mathrm{~kg}$ ) - Order unit per dimension

| Wire diameter (mm) | Inside diameter - Coils (mm) | Weight (kg) |
| :---: | :---: | :---: |
| 0.80 | from 250 to 280 | 5 or 25 |
| 0.90 | from 250 to 280 | 5 or 25 |
| 1.00 | from 250 to 280 | 5 or 25 |
| 1.10 | from 250 to 280 | 5 or 25 |
| 1.20 | from 250 to 280 | 5 or 25 |
| 1.30 | from 250 to 280 | 5 or 25 |
| 1.40 | from 250 to 280 | 5 or 25 |
| 1.50 | from 250 to 280 | 5 or 25 |
| 1.60 | from 250 to 280 | 5 or 25 |
| 1.80 | from 250 to 280 | 5 or 25 |
| 2.00 | from 550 to 600 | 5 or 25 |
| 2.20 | from 550 to 600 | 5 or 25 |
| 2.40 | from 550 to 600 | 5 or 25 |
| 2.70 | from 550 to 600 | 5 or 25 |
| 3.00 | from 550 to 600 | 5 or 25 |
| 3.40 | from 550 to 600 | 5 or 25 |
| 4.00 | from 550 to 600 | 5 or 25 |
| 4.40 | from 550 to 600 | 5 or 25 |
| 5.00 | from 550 to 600 | 5 or 25 |
| 5.40 | from 550 to 600 | 5 or 25 |
| 6.00 | from 550 to 600 | 5 or 25 |

## Applications

- Agriculture
- Industry
- Construction

## Coatings

- Commercially galvanised
- Heavily galvanised
- Black annealed
