

Coiled wire

APPLICATIONS > Agriculture

Product description

Plain wire coils manufactured from 2Life® wire which lasts at least two times longer than heavily galvanized wire.

- > Can be used to increase the height of a fence, straining wire for posts or in electrical fencing applications.
- > Available in a wide choice of diameters to best suit the application, and also in different coil weights (25, 10 and 5 kg).

GUARANTEE | We guarantee a 2 times longer service life than that of heavily galvanized wires.

Coating

- > 2Life® lasts at least 2 times longer than heavily galvanized wire BS EN 10244-2 Class A.

Characteristics

Type	Tensile Strength of line wire	Diameter	Weight	Approx length
	N/mm ²	mm	kg	m
Mild steel	Min 650	4.00	25	250
Mild steel	Min 600	3.15	25	410
Mild steel	Min 600	2.50	25	650
Mild steel	Min 700	2.00	25	1020
High tensile	Min 1050	3.15	25	410
High tensile	Min 1050	2.50	25	650
High tensile	Min 1050	2.00	25	1020

Other lengths can be made on request.
